Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Monday 06 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy start though improving through the day, trending warmer.

Today:
Rather cloudy with patchy light rain in the west on Monday morning, but generally bright in the east. However the cloud will break for most early afternoon, with some sunny spells developing thereafter. Feeling warm in light winds. Maximum temperature 22 deg C (72 deg F).

Tonight:
A fine evening with plenty of residual sunshine. Remaining dry with light winds and largely clear skies overnight, leading to a few mist and fog patches. Mild. Minimum temperature 13 deg C (55 deg F).

Tuesday:
A fine and dry day on Tuesday, with plenty of sunshine once early mist and fog patches dissipate. Warmer than Monday, though feeling cooler near the coast. Maximum temperature 26 deg C (79 deg F).

Outlook for Wednesday to Friday:
Dry, sunny and very warm on Wednesday though breezy on hills and coasts. Showers spreading erratically northeastwards overnight to become widespread and occasionally heavy on Thursday and Friday. Less warm.
